SUMMARY

Experienced Full Stack Developer with 4 years of experience in web development using technologies like React, Next.js, Express.js, Django and FastAPI.

SKILLS

Languages - HTML/CSS, Javascript, Typescript, Python.

Technologies/Framework - React, Next.js, Redux, Tanstack Query, Redis, Node.js, Material UI, Chakra UI, Bootstrap, Ant Design, Tailwind CSS, MongoDB, MySQL, PostgreSQL, Firebase, Express.js, Django, FastAPI, GoLang.

Tools - VS Code, Git, Docker, AWS, Linux, ChatGPT, Cursor, V0, Claude Code

EXPERIENCE

Datagain

Frontend Developer

Mumbai, India

2024.02 - 2026.03

- Improved application performance by optimizing components and reducing load times by 30%.
- Leverage AI-powered tools such as **Claude**, **V0**, and **ChatGPT** to accelerate frontend development, boost productivity, and reduce project delivery timelines.
- Implemented reusable UI components using **Tailwind CSS**, ensuring design consistency and scalability.
- Collaborated with backend developers to design efficient APIs and enhance system performance.
- Built and deployed multiple web applications with SSR (Server-Side Rendering) using **Next.js**.
- Utilized **Redux** for state management, improving app performance and scalability.
- Use **Tanstack Query** for data fetching in react applications for caching data on frontend improving user experience.

Decimal Point Analytics

Software Development Engineer

Mumbai, India

2020.09-2022.11

- Collaborated with cross-functional teams comprising developers, designers, UX specialists, and product managers in an Agile environment to deliver responsive, scalable, and cross-browser compatible web applications; actively participated in daily stand-ups and peer code reviews.
- Designed, developed, and maintained customer-facing web applications and internal platforms using **React**, **Next.js**, **Material UI**, and **Django REST Framework** APIs, delivering intuitive user experiences and scalable architectures.
- Performed comprehensive testing, debugging, and performance optimization to ensure application reliability, stability, and responsiveness across multiple environments.
- Conducted code reviews and enforced coding standards, contributing to improved code quality, maintainability, and team-wide best practices.
- Researched and adopted emerging technologies, frameworks, and industry best practices to drive continuous improvement and implement innovative technical solutions.
- Developed and customized **Django** Admin interfaces for both internal business tools and client-facing applications, streamlining content management and operational workflows.
- Managed deployment and maintenance of frontend and backend applications on **AWS EC2**, ensuring high availability, scalability, and smooth release cycles.
- Designed and maintained relational database solutions using **MySQL** and **PostgreSQL**, optimizing data models, query performance, and application scalability.
